Tutoring Experience

I have been deeply involved in education for over 12 years, starting my tutoring journey during my undergraduate years at UC Berkeley. My experience spans teaching students from diverse backgrounds, both in the U.S. and internationally. I specialize in guiding students through the rigorous demands of the IB, AP, A-Level, and IGCSE curricula, with a focus on Economics, Business Studies, History, Politics, and Maths.

Over the years, I've developed a teaching philosophy centered around fostering a deep understanding of core concepts rather than rote memorization. I emphasize critical thinking, helping students to not only excel in their exams but also to apply their knowledge in real-world situations. My students have consistently achieved top grades, with many going on to study at prestigious universities worldwide.

In addition to one-on-one tutoring, I've also led group sessions, workshops, and online courses. My goal is to make complex topics accessible and engaging, ensuring that each student feels supported and confident in their abilities. Whether it's preparing for an important exam or mastering a challenging concept, I'm dedicated to helping my students succeed.
