Tutoring Experience

My journey into tutoring began during my final year at university when I started mentoring younger students in Economics and Business. This experience made me realise how much I enjoy teaching and supporting others in their academic pursuits. Since graduating, I've expanded my tutoring to cover IB, A-Level, and IGCSE, focusing on personalised lesson plans that address each student's unique needs. My teaching philosophy centres around creating a supportive and interactive environment where students feel confident to ask questions and explore topics in depth. I have successfully helped students improve their grades and develop a genuine interest in Economics and Business, which has been incredibly rewarding. My goal is to make complex concepts accessible and to help students see the relevance of what they're learning in real-world contexts.
